

DOGGM

Introduction

With the rise of meme-driven cryptocurrencies, DogsonMars \$DOGM aims to establish itself as the ultimate interplanetary meme coin. Powered by a passionate community and a strong narrative, \$DOGM leverages humor and storytelling to drive adoption and create a highly engaged ecosystem.

\$DOGM is the intergalactic canine currency inspired by caninity's great heroes of space exploration and the boundless enthusiasm of meme communities. DogsonMars represents a fusion of decentralization, humor, and innovation.

At the heart of this mission is Paws, the legendary space-exploring French Bulldog, who embodies the spirit of adventure and defiance against centralized systems.

The DogsonMars movement envisions a world where Mars colonization is fun and accessible to everyone—whether you are a Welsh Corgi or a German Mastiff!

Mission & Vision

Our mission, code name P.A.W.S. (Planetary Advanced Woofing Settlement), is to create the first martian, meme-driven, community-powered cryptocurrency that bridges the gap between humor and space exploration.

Our vision is to combine memes, community power, and decentralized governance to create an interplanetary economy where \$DOGM serves as the official gas token of the Martian colony, for interplanetary transactions and beyond.

Forget about Bitcoin's slow transactions and Ethereum's gas fees that could fund a mission to Pluto— \$DOGM is here to fuel the P.A.W.S. project, the first-ever decentralized canine utopia.

Imagine a world where your transactions are approved with a tail wag and interstellar smart contracts are bark-validated! 🚀🐶

Whether you're trading, staking, or just holding on for dear life (HODL), remember: \$DOGM isn't just a token, it's a movement—because no pup should be left behind!

The Legend of Paws

Created and designed by an unknown government under the top-secret B.A.R.K. (Biological Advanced Research on K9) project, Paws was engineered to be the best space explorer:

- 🧠 Smarter than an Elon Musk on triple espresso
- 🛰️ Could hack satellites using Morse-code barking
- 💪 Fearless—except when faced with vacuum cleaners

With a squad of handpicked space-ready canines, Paws intend to set course for the Red Planet. Here at DogsonMars, we intend to help make Paws' dream come true.

LET'S JOIN Paws' revolution and take \$DOGM to the stars? 🚀🐾

\$DOGMenomics

TOTAL SUPPLY : 100.000.000.000 \$DOGM

65% FOR THE PACK 🐕🐕

- 25% Airdrop 🚀
 - Aimed at rewarding early supporters and spreading awareness.
 - Distributed to engaged community members, early adopters, and strategic partners.
 - Ensuring decentralization.
- 25% Public Presale 💰
 - Funding the development and marketing efforts of the project.
 - Enables fair access to \$DOGM tokens for investors who believe in the mission.
 - Supports liquidity on DEXs, future exchange listings, and ecosystem growth.
- 15% Staking Rewards 🏆
 - Encourages long-term holding by rewarding community members who stake their \$DOGM.
 - Provides passive income to dedicated holders.
 - Strengthens the network by reducing token circulation.

- 10% Liquidity 

- Locked liquidity.
- Facilitates stable transactions on DEXs.
- CEXs liquidity contribution.
- Provides long-term stability for holders and traders.

- 10% Team & management (Locked for 24 months) 

- Vesting over 24 months to prevent large sell-offs.
- Ensuring long-term commitment.
- Rewards the developers, strategists, and contributors fueling the mission.

- 10% Marketing & media 

- Dedicated to promotional campaigns, strategic partnerships.
- Ensures influencer collaborations, and social media presence.
- Ensures continuous growth and ecosystem expansion.
- Ensures awareness of \$DOGM across the crypto space.

- 5% Innovation & development 

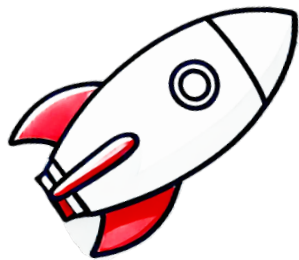

- For future project development.
- Enables funding for research and unexpected opportunities.
- Ensures financial security for the long-term vision of DogsonMars.

With this structured allocation, \$DOGM ensures a fair, decentralized, and engaging ecosystem where both early adopters and long-term holders benefit.

Every token serves a purpose from funding the construction of the starship to fueling the intergalactic canine economy of DogsonMars! 🌌🐕

« These allocations may be subject to slight adjustments based on market conditions, project evolution, and strategic decisions to ensure long-term sustainability. »

AIRDROP

Total airdrop : 25,000,000,000 \$DOGM 🚀

The \$DOGM airdrop is designed to reward early adopters and boost community engagement through quests and strategic incentives. It will be carried out in 3 phases:

1. Phase 1 (50% of the airdrop tokens - 12,500,000,000 \$DOGM) 🔥

- Rewards participants who complete online quests
- Encourages community involvement and social engagement.

2. Phase 2 (25% of the airdrop tokens - 6,250,000,000 \$DOGM) 💰

- Reserved for wallets that purchased at least \$100 of \$DOGM tokens within the first two weeks of the ICO (with a maximum airdrop of +100% of the total amount of token of the initial purchase).

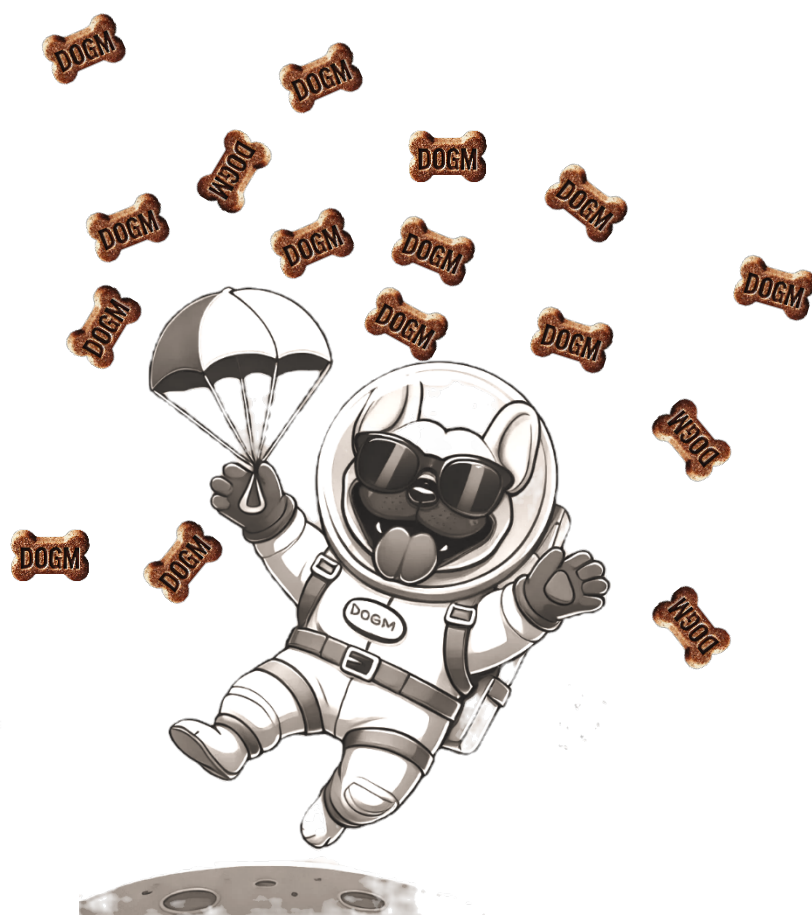

3. Phase 3 (25% of the airdrop tokens - 6,250,000,000 \$DOGM) 🎯

- Distributed to \$DOGM holders based on a random snapshot taken within the six weeks after the creation of the liquidity pool on DEXs.
- Rewards long-term believers in the mission of \$DOGM.

Any unclaimed \$DOGM tokens will be permanently burned, reducing the total supply and increasing scarcity, making \$DOGM even more valuable for the holders. 🚀🔥

This structured airdrop ensures fair distribution while encouraging active participation, strategic holding, and long-term community growth. 🚀🐶

Public Presale Strategy

The \$DOGM public presale will distribute 25% of the total supply (25,000,000,000 \$DOGM) over 28 days, with 14 price stages. Starting at \$0.00003, the price will gradually increase every two days.

This structured approach balances growth, demand, fair access and long-term sustainability.

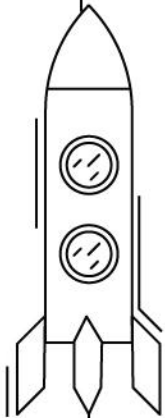

- Presale Supply: 25,000,000,000 \$DOGM (25% of total supply)
- Duration: 28 days
- Phases: 14 (every 2 days)
- Price Increase per Phase: ~5%
- Max purchase per wallet : \$1,000

Any unsold tokens will be added to the spaceship's fuel tanks and burned upon launch 🚀🔥

To prevent whales from gobbling up all the kibble, we've set a purchase limit of \$1,000 per wallet during the presale.

No kibble left behind! Grab your \$DOGM early, or you'll be begging for scraps at moon prices! 🚀🐶

« The terms of the public presale may be subject to certain adjustments. »

Burning Hydrogen Program

The Burning Hydrogen Program (BHP) is designed to efficiently fuel the spaceship's engine, ensuring the necessary thrust to propel our brave doggos to Mars while reducing the token supply.

BUYBACK AND BURN MECHANISM 🔥🔥🔥🔥🔥

- Fee on transfer (0,5%)
- Swap fees on DEXs (0,1% buyers, 0,4% sellers) 🔥
- Advertising revenue burn mechanism (100% burn) 🔥
- Staking with a burn mechanism 🔥

100% of the fees and revenues generated by this program will be allocated to Buyback & Burn to reduce the \$DOGM supply and enhance its scarcity.

Every burn brings our astro-pups one step closer to conquering Mars!

Roadmap

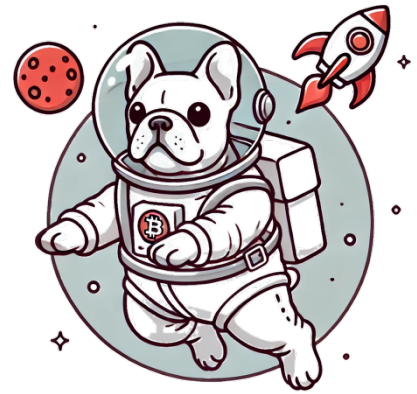

Phase 1: Spaceship construction 🚀

- Website & social media launch
- Smart contract deployment on BSC
- Community building & whitelist for public presale
- Initial Airdrop campaign

Phase 2: Liftoff 🚀

- Public presale launch
- Staking and rewards system implementation
- Listing on decentralized exchanges (DEXs)
- Partnerships & marketing push

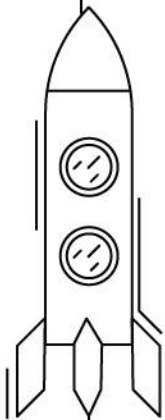

Phase 3: First Paw on Mars 🐾

- Dashboard of the Burning Hydrogen Program
- Listing on major centralized exchanges (CEXs)
- NFT collection and merchandising launch
- DAO governance implementation

Phase 4: Galactic Expansion 🌌

- Development of a DogsonMars Play-to-Earn game
- Real-world adoption campaign and partnerships
- \$DOGM officially recognized as the first intergalactic currency
